I. INTRODUCTION

Since the world appears to be made up of mostly unbelievers, God must have some set of laws for all human kind while they are alive. These are called the Law of divine establishment, and they are applicable to both believers and unbelievers. This truth is the doctrine of the Law (laws) of divine Establishment and involves obedience to and respect for established authorities; the willingness to respect the liberty, privacy and property of others; and the willingness to obey established law of the Constitution of each nation, which ideally, is based upon 6 of the Ten Commandments of the Torah (see next page).

The laws of divine establishment are designed to protect the “Divine Institutions” of the societies (MAN, WORK, MARRIAGE, FAMILY, MILITARY, NATION, etc.) which are made up of believers and unbelievers alike. These laws are designed also to allow the acknowledgement of the divinity concept (God exist!). Adherence for example to the Charter of the United Nations (UN), which is an example of the Laws of Divine Establishment, both protects and advances a society. Rejecting these laws leads to the destruction of a society. These Laws of Divine Establishment (Justice, Freedom, Human rights, etc.) have been allowed by God to be inserted in the “Caesar” earthly system in order to protect the Divine Institutions in opposition to the “Law of the Jungle” whereby the man could have the legal right to destroy the human kind for selfish ambitions.

The Evil (satan) never sleeps and of course, opposes these laws. He continues to oppose them in a variety of ways in order to bring down free societies. For example, satan is the author of Genocides! There are multiple satanic attacks on the laws of divine establishment going on every minute of the day (corruption, injustice, murders, robberies, rapes, etc.). Satan knows that nations which reject the Law of divine establishment are cursed!

One of the best examples of this is North Korea and South Korea. One nation (North-Korea.) has completely rejected these laws (Anarchy, tyranny, oppression, godless, etc.) and the other (South Korea) has embraced these laws (Democracy, Liberty, godliness, etc.). We now have at least 50+ years of history which allow us to see a great contrast between God’s laws and evil influence. These are people from the same stock; their nations have roughly the same natural resources (North Korea probably has slightly better natural resources). North Korea is one of the dictatorial and poorest nations in the world; South Korea is one of the most democratic and vibrant countries in the world with a flourishing economy. Both nations started at nearly the same place, and, in 60+ years, they are like night and day when it comes to what these nations are like. The key differences between the two Korea are: the Law (laws) of divine establishment. Another example is the high contrast of the United Arab Emirates (UAE) with its Arab neighbors countries such Syria, Irak and Afghanistan...the only cause of the success being the obedience of the laws of divine establishment (Social justice, Freedom, Respect of humanity, etc.)!

The societies are dealing with such concepts as marriage, family, work, freedom, socio-economy, etc. Therefore, all people need to understand these laws so that they discern what is good and right, and act consequently for the society in which they live.

THE TEN COMMANDMENTS (TORAH)

The Ten Commandments are a freedom code given to Moses which describes what freedom is within a national entity as a divine institution. Therefore, the final 6 commandments are designed to preserve the divine institutions (MAN/WORK/MARRIAGE/FAMILY/NATION).

These laws also codify the Godly concept which controls all the societies of the world.

The first 4 commandments define the legal relationship between God and man:

Commandment 1: “You will have no other gods before Me.” Obviously, this commandment is for believers only…

Commandment 2: “You will not make for yourself a carved image … You will not bow down to them or serve them…” (Exodus 20:4–6). Again, this is for believers only…

Commandment 3: “Do not use the name of Jehovah your God in a false, evil, vain or demeaning way. Jehovah will make sure that anyone who speaks His name in such a way will be punished.” (Ex. 20:7). For believers only…

Commandment 4: “Remember the Sabbath day, to keep it holy… On it you will not do any work… (Ex. 20:8–11). Amazingly, all civilizations have a 7-day week, which is based upon God’s rest after the creation of the earth in 6 days (even unknowingly).

The final 6 commandments define therefore the relationship between men in a national entity, which are the essence of a code which provides freedom, protects private property rights, and protects and preserves the divine institutions (man, work, marriage, family and nation). With the 5th commandment, we begin to get into the laws of divine establishment, which ought to be carried over into all nations and civilizations (check Human Rights):

Commandment 5: “Honor your father and your mother …” (Ex. 20:12). Here, the relationship of the family is codified for all time, and the nation which obeys this commandment is blessed.

Commandment 6: “You will not murder.” (Ex. 20:13). This was one of the first commandments given to man after the flood (Gen. 9:6) where man was responsible to punish those who murdered with death (…Who shed man’s blood, shall his blood be shed…). Murder is an attack upon the society/divine institutions “MAN” and “FAMILY”.

Commandment 7: “You will not commit adultery.” (Ex. 20:14). Adultery is an attack upon the divine institutions “MARIAGE” and “FAMILY”. Marriage is a unique relationship between man and woman, designed by God in eternity past, and revealed when He created the woman.

Commandment 8: “You will not steal.” (Ex. 20:15). This commandment tells us that we have a right to own property. Private property is protected by God.

Commandment 9: “You will not bear false witness against your neighbor.” Going to court can deprive a person right; therefore, God expects for us to tell the truth in court.

Commandment 10: “You will not desire to take your neighbor’s house, your neighbor’s wife… or his female servant… or anything that is your neighbor’s.” (Ex. 20:17).

Therefore the Commandments 6–10 represent the establishment law for any orderly society.

II. THE LAW OF DIVINE ESTABLISHMENT (LDE)

God has a temporal Plan (on planet Earth) for all human kinds, believers and unbelievers alike. When this plan is broken down into its component parts, it is called the Law of divine establishment. These are laws that enable the societies to function in the realm of God’s principles (Check for example, the 1804 Napoleon Code which forbid the marriage between brothers and sister). These laws operated throughout human history, in all kinds of societies, in many different nations, under many different governments. These laws, ordained by God, provide for the survival and freedom of the human race throughout human history. The more closely a nation follows these laws, the greater the freedom and the greater the happiness of that nation. The more a nation deviates from these laws, the worse off that nation becomes.

Citizens should not rebel against established authorities as long as the leaders promote these laws. However, it was not right for the Germans to support Hitler (an established Leader) for the neocolonialism of the earth. Therefore, one can fully support the Germans who rebelled against Hitler and supported the Allies to defeat the Nazism. That is why some cases of African revolutions can also be accepted as application of the law of divine establishment (LDE).

A question: Had the population of Iraq the right to revolt against the oppression of Saddam Hussein? If YES then the “revolutionary movements” is permissible for the restoration of discipline…Once the RED LINE is crossed, it is over for a nation; this is another law LDE!

About the Torah, in 1 Samuel 27-30, when David was a refugee for 1 year and 4 months in the “Philistine Land” raising an army, it was not for tourism! For it the same army that took back the land King Saul had lost against the Philistines. David had (even) previously agreed to support the Philistine’s army against Israel! Read 1 Samuel 28:1-2 and 29:8.

The Torah clearly states that David agreed to fight against ISRAEL! Why? Because even God had abandoned Israel for the disobedience of the Law! So, God, can allow revolution to take place, inasmuch as it fits to His plan to restore the Law of Divine establishment. The ultimate divine condition must be: The right socio-cause (socio-justice, socio-freedom, etc.)! These laws, if followed, provide protection for the human race, an orderly human existence and more freedom for man. The evil system inspired nations which rejected the laws of divine establishment. These include such nations as the racist former government of South-Africa under the “Apartheid power”. Such examples are all attacks upon the Law of divine establishment, and therefore they are attacks upon the human race itself. This is why Apartheid both faced the revolution of ANC which was a Force used by God to restore discipline!

In another hand, the only reason why the rebels of Libya were supported … or the rebels of Syria are going to be supported…was (will be) the protection of the Law of divine establishment by the international community.

III. THE DIVINE INSTITUTIONS

This topic—the 5 divine institutions—is the foundation for the Law of divine establishment. A divine institution is that which is created or designed by God in order to preserve and protect the human race. Divine institutions are designed by God for the people of all nations and for believers and unbelievers alike. Divine institutions provide freedom and stability for the human race; provide orderliness and organization for the human race. Therefore, every person of the planet “Earth” is affected by and involved with the (5) divine institutions. If divine institutions are compromised, contaminated or corrupted, a society or nation may collapse. Although there are many additional divine institutions ordained by God, the 5 below are the most fundamental with the most widespread application.

The First Divine Institution—MAN (the Human Soul)

God created the human soul and the human soul is made up of self-consciousness, mentality, emotion, norms and standards, and volonté as the authority of the soul. We are concerned with the “volonté” which God has given us. Our decisions mean very little unless they are free will decisions. Therefore, we need some minimum of freedom and privacy in order to make meaningful free will decisions. Part of the limitations of freedom includes the fact that we share this world with another 6 billion people, each of whom has his own will. The laws of divine establishment allow for our will to operate in such a way that we can choose for or against God, however abiding in the Human Rights which preserve the human race. These laws enable us to reprogram the mentality (MINDSET) in order to defeat the under-development. Note the example of China, which has allowed, in the past decade, changing of mindset by increasingly more freedom; and, as a result, that nation has begun to grow and prosper. The evil systems (satanic) attack the souls of the human kind and encourage the will of the soul to make wrong choices. Another of satan’s attacks is the tyrannical state where the government makes increasing decisions which are direct attacks upon the other divine institutions (man, work, marriage, family); such attacks as socio-injustice, high level of corruption, genocides, etc.

The Second Divine Institution, Work

From the creation (the Beginning), man was designed to work. God made man and placed him in the Garden of Eden to work (Gen. 2:8–10, 15). After man sinned, God gave Adam ground that was more difficult to work and He warned man that he would work hard in order to eat (Gen. 3:17b–19a). Although the earliest professions were farmer and rancher (Cain and Abel), early man quickly developed a number of vocations, builder (Gen. 4:17), metal-worker (Gen. 4:22), etc. At the very beginning, as far back as Gen. 4, man is closely associated with his vocation. Work is an integral part of man’s existence. When man/woman works hard, he will also receive personal satisfaction from his work. Eccles. 9:9 speaks of two things which are to bring enjoyment in life: a man’s right woman and his labor. Since this passage refers to him as “under the sun”, this refers to all human kind alike. Satan also attacks the divine institution of work with unfair business owners and various cases of high level corruption promoted by some governmental leaders.

In the series of geopolitical analysis by Col. (Rev) D. NYAMBARIZA (Exile in Uganda)
-June 2013-
The Third Divine Institution, Marriage

Marriage, the third divine institution, mixes freedom, privacy, authority and responsibility (applied to all humanity). Marriage, a permanent relationship between man and woman, is ordained of God (Gen. 1:26-27, 2:18-25, 5:1-2). Marriage is the most basic and fundamental organization in the human race. Even the best killer, whose life is a total failure, can have great temporary happiness by marrying the right woman, (Eccl. 9:9). Under the authority of the Law (laws) of divine establishment, the right man-right woman relationship becomes the normal and legitimate expression of category. Marriage is to be held in honor among all, and the marriage bed is to be undefiled. Marriage is the basis for stability in society and for the formation of civilization. The laws of divine establishment are designed to protect freedom and to preserve the human race; marriage both protects and preserves the human race. Marriage is a relationship analogous to our relationship with God.

Satan attacks the institution of marriage from within, to try to destroy it. He attacks the marriage unit with substitutes, usually attempting to exploit the sexual drive: illegal polygamy, sexual perversions, homosexuality, lesbianism, living together, etc. Homosexuality is one of the great attacks upon marriage in the time in which we live. Liberty without authority becomes anarchy and authority without liberty becomes tyranny. Liberty and authority must be balanced by the Law of divine establishment in order to protect human race.

The Fourth Divine Institution—Family

The family provides the framework for maintaining order within a society. Children are taught establishment and godly norms and standards, the clarity of absolute rights and wrongs, and authority orientation. Because we are born into this world as completely helpless, God has designed the family as the proper unit within which to raise a child and to protect the mother. Ideally speaking, this requires the child’s biological parents. There is certainly a place for the discipline of a child within the family (Prov. 23:13). The highest expression of parental love is to teach through the forms of discipline. (Prov.:13:24, 23:13). Children are all born with sin natures. Therefore, in order to introduce this child into society and we need for that child to behave responsibly—with respect for the will, privacy and property of others. From age 0 on up to when the child leaves the home, the parent enforces specific decisions, teaching the child why such decisions are made; and gradually, these children are allowed to make their own decisions... Otherwise the nation suffers from insecurity, instability, and eventual loss of liberty. National disintegration begins in the family. Just as before, satan attacks the divine institution of the family with substitutes: single-mother households, gay-parent households, public education which attempts to undermine the authority of the home. Free Abortion is a result of a lack of natural affection, one indication that a society is on the decline. Few cases (such sicknesses) can allow abortion...depending by levels of faith!
The Fifth Divine Institution—Nation (The Government)

The divine institution of national governments helps to preserve the freedom of peoples of the earth. It is God’s plan for there to be many nations. Divine institutions balance will and authority. Rom.13:1–7 tells us the importance of the authority of the national entity (and other authorities within the entity): Let every person be subject to the governing authorities; for there is no authority except from God…For rulers are not a terror to good conduct, but to bad conduct…a revenger to execute wrath upon him that does evil… Here, there is an important condition: …the authorities must be a terror to bad conduct… and must punish the evil doers! …

What about if the authorities become the evil doers? What about if they teach “the race supremacy” like Hitler and plan to destroy the remaining “inferior races”? What about if the leaders plan genocides? Should we pray and wait until God comes down from heaven? One thousand times Nooo…! We are God’s representative (Ambassadors) on earth and we must take responsibility! That is why one can condemn the whole regional and international community which didn’t act against the genocide of Rwanda. All nations were (and are still) responsible to stop the genocide from DAY1 … regardless of AU or UN orders!

When a government or political party encourages the people to disobey the Law of divine establishment based on the final 6 commandments of the Law of Moses, then we know that person or entity is wrong and they will lead the nation astray. God promises blessing to the nation which follows the laws of divine establishment for all nations (Read Lev.26:3-6). Similarly, there is great cursing for the nation which has turned away from God (Deut.28:30-50).

There ought to be a common culture which reflects the morality, patriotism and integrity of a nation through its literature, art, music, and drama. There should be a system of government which functions without abusing its power to destroy freedom and socio-justice. There should be an administrative body to represent the functions of taxation, honorable jurisprudence, maintenance of the military, and enforcement of law and order without the destruction of human freedom.

IV. PRINCIPLES OF FREEDOM

The laws of divine establishment are based upon human and spiritual freedom, to be able to choose his religion without compromising the social order set by the authority! Freedom is both the privilege of the human race but Freedom must not lead to anarchy. That is why freedom is balanced by authority of the –Voted Constitution- another component of the Law of divine establishment.

Quite obviously, if you do not depend upon the government to take care of you, then you must exercise some personal responsibility to take care of yourself. Freedom cannot exist without people taking responsibility for themselves. However, because “Freedom” requires authority, there must be some leadership, some set of rules, or some guidance to insure that the exercise of someone’s freedom does not clash upon another one’s personal exercise of freedom. Therefore, Freedom without authority is anarchy and authority without freedom is tyranny.
V. WAR

The Character of War

War is a normal human activity, and all of the marches for peace in the world will not end war! There is a lot of war in the Torah, and the honoring of the soldier is found throughout Scripture. The greatest compliment that Jesus (Isa) paid to any individual was to a Roman soldier. Jesus did not rebuke the man for being a soldier; Jesus did not tell him, “I will heal your servant but to be perfect, you need to lay down your weapon, desert the Roman army, and follow me…” What Jesus said was (Matthew 8:10), “I have found no one in Israel with a greater faith [than this Roman soldier].”

The Righteous War

Let’s say you are under an incredibly socio-unjust and corrupted government and they want you to go to war, what do you do? Let’s say, your government is on the wrong side in a war, what do you do? Or your government begins the wholesale socio-injustice or the slaughter of its own citizens, what do you do? These are some very rare situations for the average believer! If you have believed in the Law of divine establishment, you know that you know, that you know in your heart, that your country (and its leaders) is completely wrong and the “Enemy” is completely right ... then not only the Torah but also the human consciousness tells you what to do: Reject the Government and join the Enemy side! This is the concept of ADN/ABATABAZI and FNL, among others... a righteous war!

In the series of geopolitical analysis by Col. (Rev) D. NYAMBARIZA (Exile in Uganda)
-June 2013-
Rahab was a woman of Jericho in the Bible who decided to support the enemy side because she got divine human and spiritual consciousness that it was the right choice. Later, she was the only one survivor (with her family) form the enemy attack (Joshua attack)…Check, in modern times, any war that supported rightly the laws of divine establishment had to win (Uganda, Rwanda, DRC/Zaire, Libya, etc.)! Most people would understand that going to war after being attacked is justified. What about prevention? ... In the Old Testament (Torah), much of the time, God would guide Father Abraham to go to war against certain nations. Therefore, there is evidence in the Torah (Old Testament) as to what sort of wars we as a nation ought to be involved in.

You recognize evil in some nations by whom they choose to ally themselves with. Talking about the history of Nazi Germany, we recognize that if Japan chose to ally themselves with Nazi Germany, then that revealed their true colors (no wonder, they were kamikaze. Now, you may think that this is unfair, and that we should not always identify the people with their leaders, as their leaders can be despots...Bad luck! God gives a people the leader they deserve or a leader who is appropriate for them.

Think about the President Mobutu of former Zaire, where the majority of the population was involved (and may be still) in witchcraft and idolatry! Think the assassination of our African hero Patrice LUMUMBA then you can conclude that the war against Mobutu was Right!

Understand...some examples of the Law of the divine establishment are the UN Charter or the Declaration of Human Rights by which preamble states that a people who is under oppression and tyranny from its leaders, will rebel unless the leaders change positively. This is a “Caesar” reality fact which must be given to “Caesar”! This means that armed revolutionary movements will always be created to win tyrannical and undemocratic governments.

In other words, the African wars against Idi Amin/Obote (Uganda), Mobutu (Zaire/DRC), Kaddafi (Lybia) and others were as righteous as the war against the Nazis. It is important to recognize that evil’s plans and deeds are not difficult to understand! When you see the Law of divine establishment being suppressed by immoral sexuality (prostitution, same sex marriage), idolatry (witchcraft), socio-injustice and a people being raised to hate another people, you know that evil is at work and has captured the hearts of much of the population where such things are taking place.

In the series of geopolitical analysis by Col. (Rev) D. NYAMBARIZA (Exile in Uganda)  
~June 2013~
And when people reached a tipping point of degeneracy (red line), God uses war to restore discipline (check Syria case). This is one of the reasons we were given the Law of Moses, so that we are able to recognize the evil works in our contemporary world. In the actual democracy, balkanization is a decisive strategic instrument to discipline such a nation that has challenged the laws of divine establishment! Check the balkanization of former Russia (USSR) into independent countries and the former Yugoslavia divided into Croatia, Serbia, Bosnia, Macedonia, Kosovo, etc.

Balkanization is an instrument to discipline the people and their leaders! In fact, once Europeans understood that Yugoslavia, by its instability, was endangering whole socioeconomic system of Europe, the only remaining choice was to force division of Yugoslavia into different nations! What the Europeans understood (but Africans have not yet!) was that there is no such “country for country-men”, but there is

One of the biggest problems of DRC is the MAI MAI Myth! It is proved that these guys, fully believing (in) and using “black magic” have committed the worse DRC crimes against humanity, by “famously” slaughtering millions who are not from their race, having the worldly record of rapping women, killing children and eating their victims… A Solution must be found against such humanitarian crisis!

As far as concern the Balkanization of DRC, which may be a better solution for Africa and the Congolese people; however, the Congolese people must decide themselves…!

The Law of divine establishment (LDE) therefore allowed client nations to defeat and sometimes to destroy evil nations which had become dangerous cancers in this world (a client nation is a nation in which a significant portion of the people abide in the LDE).

A nation which kills unjustly its own people and suppresses freedom is a cancerous state. Nations which promotes freedom, justice and socio-economic development are nations which are blessed. There are times in human history where those nations blessed will be called upon to defeat and even to destroy cancerous nations.

This has been the case of Allies which destroyed the German of Hitler, the Irak of Saddam; case of Allies which destroyed the Zaire of Mobutu; and this will be the future cases where African client nations will be used to restore discipline in some cancerous nations such as Burundi and the neighborhoods…, if they don’t change! … It is neither about hatred nor love of power; it is about the destiny of humanity! … It is about the similar case where a cancerous leg must be cut of the body!

Africans should know that the Europeans countries which are most “shouting” are the ones using (or fighting for) the wealth of DRC to develop Europe against the poverty of Africa (include DRC). Against such evil supported by some puppet African leaders, real African patriots must be ready to support any righteous war which will liberate Africa to freedom!

**War and Tactics in the Torah**

Evil is constantly at war against right people. Evil will distort sound doctrines of the Torah and will do everything possible to distort the human thinking and mindset.

When we study the Torah, we find out that the borders of nations do change, and this is done by means of warfare, and that warfare is a part of man’s existence. We find out that many nations lose out because they become very evil. The Torah shows the expansion of the children of Abraham through warfare…aggressive and some defensive.

The importance of having a strong military is found by the study of the Torah. War will be a part of world history pretty much each and every year.

Because war is an integral part of human existence, so are tactics, and the Torah presents warfare tactics on several occasions. Leaders who study the Torah learn from what it teaches in this realm: *wars in the Torah were not won by the majority against the minority, but were won by the right cause!* War has been (and will always be) a divine tool to discipline nations that are not obeying the laws of divine establishment.

**VI. THE CONCEPT OF LEADERSHIP**

**The Good Leadership**

Most people have little understanding of the importance of authority. If they are under authority, they buck it, and if they have authority, they abuse it. Some people acquire authority only so that they can abuse it. For example, they say: “If I get the job, I must rob quick before I am replaced…I must build a house quick in one year…I will pay everything that I work in the port, in the finances, in the Court, then I can be rich easy…etc.” They have evil attitudes based on the wrong colonialist mindset!

In order for you to exercise your own authority properly, you must have respect for authority. If you are unable to respect and appreciate the authority which is over you, then you will never understand the proper function of your own authority. The first authority over you is the authority of God! Leaders who abuse their authority are not qualified to be in a leadership position. Leadership means that you take responsibility for those whom you lead. Furthermore, leaders must have self-discipline, integrity and loyalty. A good leader must learn when to be inflexible and when to be flexible! Slackness such as Burundian is the worst enemy of leadership. Whatever organization you lead, it is your relationship with those under you which will fulfill the mission of the organization.

In the series of geopolitical analysis by Col. (Rev) D. NYAMBARIZA (Exile in Uganda)

~June 2013~
A leader needs to be fair to those under your authority. People should not have a legitimate reason for thinking that such people are getting preferential treatment. However, this should not be done in some know-it-all, self-righteous way.

There are a huge number of traits which a leader needs to develop: teachability and being able to teach; along with being in good physical conditioning, having poise, being courteous, and being able to listen.

### VII. CONCLUSIONS / RECOMMENDATIONS

Conclusions:

In countries where the laws of divine establishment are not followed, the next will happened:

1. Luck of freedom and daily cases of social injustice;
2. Terrorism against the population (most of the political opposition);
3. High level of corruption for the sake (benefit) of the power in place;
4. Promotion of various forms of segregation (ethical, political, etc.);
5. Politicization of the Army and the Police for the sake of tyranny and oppression;
6. Promotion of negative mindset to support neocolonialism against Africa;

Against such nations, all patriots have the right to support the revolutionary movement to fight for the restoration of the laws of divine establishment. To not do so, equal to support evil works... A people which supports evil works must therefore face discipline include aggressive wars for military occupation!

Recommendations:

1. Reprogramming the African Mindset for socioeconomic development;
2. Uniting of Africa against the Neocolonialism which is despoiling the Continent from its natural resources;
3. Acting through UN against cancerous nations (people) which are crossing (or have crossed) the RED LINE such as (N) Koreans, Syrians, Burundians, Rwandans, etc.;
4. Planning partnership of all revolutionary movements to destroy African cancerous States (one by one) for the sake of Humanity;
